A LITTLE DOG SAVED THEM

Mr. Newsom Fell Heavily and · His Wife's Sister Came to the Rescue.

(Special to The Times-Dispatch.) PETERSBURG, Va., Nov. 3 .-- Nearly asphyxlated by gas from a defective stove flue, Mr. and Mrs. George F. Newsome were found unconscious at 3 o'clock this morning at their home, on Halifax street, and were saved from death by the immediate and effective work of their friends and physician. Mr. and Mrs. Newsom's room was filled with suiphuric gas from a hard coal stove in the adjoining room, the flue of which falled to work. The violent barking of a small pet dog in this room, probably aroused by the fumes of gas, awoke Mr. Newsom, who arose in a semi-conscious condition, and fell heavily, injuring his head, the noise of the fall arousing his wife's sister, who at once came down wife's sister, who at once came down from the floor above, and found Mr Newsom partially conscious and his wif-

promptly responded to the call for help, the unconscious man and woman, were carried out infer fresh air, and Dr. R. A. Gamble summoned, whose arrival found the patients well on the way to recovery by the vigorous work of their rescuers. NAPGLEON GUNS.

Residents of Church Hill, particularly those who live in the beautiful section along East Broad Street, from Twenty-ninth Street out beyond Chimboraze Park, have been the victims for the past two weeks of a muisance that, has made life hardly worth living. For a solid foringint, say indignant citizens, has the dump at the end of Thirtieth Street, south of Broad, and near the opening of the tunnel, been burning, and such odors as arise cause noses to rise high in the air. The fact is that houses have to be kept closed at times, and it is disagreeable to walk on the park or in the open air. Several times the hose has been turned on, but without the effect of extinguishing the fire. The smell is terrific, and property-holders are up in arms against the municipal authorities who allow it.

Amount of Government's Average Daily Mail Estimated When Business Greatest.

(From Our Regular Correspondent.) (From Our Regular Correspondent,) WABHINGTON, D. C., Nov. 3.—There is reason to believe that the administration has found a way to deal with the railroads in the matter of securing cessation of opposition to rate regulator, that will work like a charm.

Government mail contracts aggregate nearly forty millions annually. It is asserted that this is out of all proportions to the charges for transportation

lions to the charges for transportation of other classes of matters, and that the method of fixing these charges in-volve the loss of millions to the government every year. This is probably a fact, though the rate for the transportation of freights has decreased, despite what is said in many quarters, powerful influences have kept the rate for mali transportation at where it was years

The assertion was made to-day by an railway companies charge the govern ment three times as much for haulire the mails as they charge the express companies for transportation of express matter, while the conditions under which the two classes of matter are hauted are practically the same.

Paid for Matter Not Mailed. The weighing of the mails, upon which he compensation of the railroads is based, is done every four years, and it ments being sent out by Congressmen to their constituents, so that, even if the rate per pound was a fair one, the tonds would still be making an enor-mous profiet because of their being paid hauling tone of matter never malled.

Two riders, S. S. Roszell and Mr. W. H. Garnett, who lost hounds and were riding across country, viewed the fox as he was running through an orchard, about a mile from Goose Creek bridge, toward Middleburg. Mr. Roszell stated that Reynard was far spent and running slowly, with his bush trailing on the ground. He was a large red dog fox.

The attitude of the G. A. A. Board is that no game shall be played unless Carpenter has satisfactorily proved his innocence of the charges made.

NEGRO MURDERER
HAMGED IN FLORIDA

TALLAHASSEE, PLA, November 3.—
Isham Edwards, colored, paid the death renally for the murder of N. W. Eppes at the county fall here to-day. About 150 persons were admitted to the fall to witness the execution. Probably 5,000 persons gathered in the neighborhood. Edwards made a confession on the scaffold, stating that he alone was responsible for the crime. In a lengthy statement he warned all to avoid evil complantions and meet him in heaven. He met his fate without a tremor. He was attended by Pather Hygon, a Catholic priest. The irap was sprung at 12:45. The knot sliped and a feeble pulse continued twelve minutes. No unusual scenes marked the execution.

A Divinished Field. At one bidding the hounds sailed away, leading the field over a flight of rails,

only to disappear again across the impassable Goose Cřeek.

The field, which had now diminished to twelve riders, found a friendly ford, and again found house checked south of Fietcher's farm, Cotesworth carried his pack forward afield and east them. The hounds found the line and ran for two helds further, when, on account of high wind, they last altogether. Despite a half-dozen casts, hounds were unable to continue on the line, and at 11 o'clock were called off and taken to the kennels at Middleburg, the run half ended at the exact spot of the meet, and within a half-mile of the cover bounds first spoke.

The work of the English hounds was excellent, and in the report of the judges, this is noted by all.

Mr. Highinson ran his regular pack, made up of twelve couples of bitches and six and half couples of dogs. Belman, a dog-hound, helig substituted for Vallant, who was on the sick list.

Carolina and Georgetown Meet On Broad Street Gridiron

TEAMS IN GOOD CONDITION

Tarheels Have Improved Since V. P. I. Game-Georgetown is Light This Year.

Lovers of football may expect to ses a good, clean, hard-fought game in Broad Street Park this afternoon be-tween the aggregations of Carolina and Georgetown. The Tarheols have made wonderful improvements since their appearance against the gridiron warriors of V. P. I., and the line-up for to-day will make, generally, a stronger showing. The aggregation from Georgetown is light, but it is believed that what they nack in weight will be made up in speed, which is a great consideration in foot-ball tactics. Whatever the result of To-day's contest, the struggle will be hard fought, and the winning team will, hard-

fought, and the winning team will, hardly, win by a big score.

The Georgetown team is light, weighing only about 160 pounds on the average. The team is, too, inexperienced,
there being only one last year man in
the eleven that will line up this afternoon. The new eligibility rules have
caused to be dropped eight men, Captain
Fitzpatrick, left tackle, being the only
man saved to the team from last year.

Have No Rooters. Have No Rooters.

Georgetown will bring eighteen men to the field, and will be without rooters. Carolina will bring a great many more, and will probably be attended by a few students to cheer them in victory or console with them in defeat. beels are in fine physical condition, and are confident. On the other hand, Coach Reilly, of the Georgetówn eleven, is doing little talking. He may have someing fittle taiking. He may have some-thing up his sleeve, which will appear only this afternoon when the two teams are lined up for the battle. Georgetown's eleven will be lined up as follows; Right end, Brennan; right

NO MAN STRONGER THAN HIS STUMACH.

The celebrated Dr. Abernethy of London was firmly of the opinion that disorders of the stomach were the most prolific source of human ailments in general. A recent medical writer says "every feeling, emotion and affection reports at the stomach (through the system of nerves) and the stomach is affected accordingly. It is the vital center of the body "* * * * ." He continues, "so we may be said to live by (and he might well have said through) the stomach." He goes on to show that the stomach is the vital center of the body. He says "the function of digestion in its several stages is to prepare the food in forms which are suitaable to be added to the structure," meaning the structure of our bodies. He continues, "every physical action from simple breathing, thinking and circulating of the blood to the most active bodily exertion wears out portions of the structure (of our bodies) and they become dead and so require to be taken away speedily. Much of the food which we take, and especially when unwholesome or in excess, adds to the waste material, and when it has undergone chemical changes it is still more mischievous." Then he goes on

when unwholesome or in excess, adds to the waste material, and when it has undergone chemical changes it is still more mischievous." Then he goes on to the effect that the nervous system prompts every part of the circulating system. He says "it gives its message every moment to the infinate number of glands and follicles to unload themselves of waste material so that the current of blood may carry it away."

"When these two processes of nutrition and excretion are thus carried on with equal assiduity we are in health, but when this equilibrium does not exist there comes disorder and disease. The common form of such derangement is indigestion or dyspepsia. "He operations which depend upon it go wrong. Under these conditions it has a way of appearing in other types of disorder. Many of these often mislead physicians." Other parts of the organism are likely to be involved, and we may find consumption, kidney complaint, hepatic (liver) disorders, hysteria and even mental allienation (derangement)." He says "it may be observed that deranged persons have a woe-be-gone expression, offensive breath, irregular action of the bowels, hallucinations and other like conditions of dyspepsia."

The shooting was purely accidental. Young Wilson came out of the ticket office, and brought with him a pistol, which it was his intention to sell to Robert A. Christmas, Wilson handed him the weapon and just as ha did so a shot was heard and Christmas exclaimed "I did not mean to do it." Eye witnesses say that it was an accident, and in handing the pistol out, young Wilson had the butt from him, and in taking it the trigger was touched and it went off.

Died at Hospital. Wilson was then placed in a large vehicle and earried to the Watts Hospi-tal, where he died at 215 o'clock this afternoon, Young Christmas was so over-
